

PREDOKENSKÉ ROLETE

PREKLADNI ZOB

ARTEVO

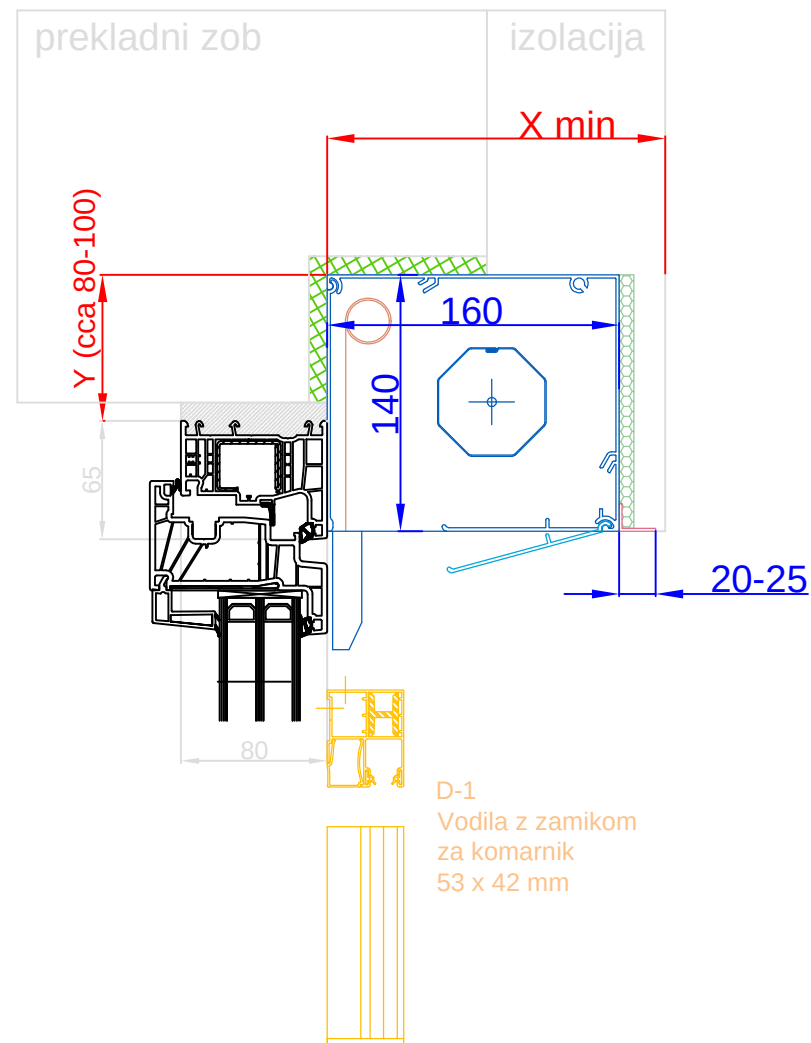

Omarica 140

X min = globina omarice + zunanji ometni kotnik
140mm omarica + 25mm ometni kotnik
= 165mm

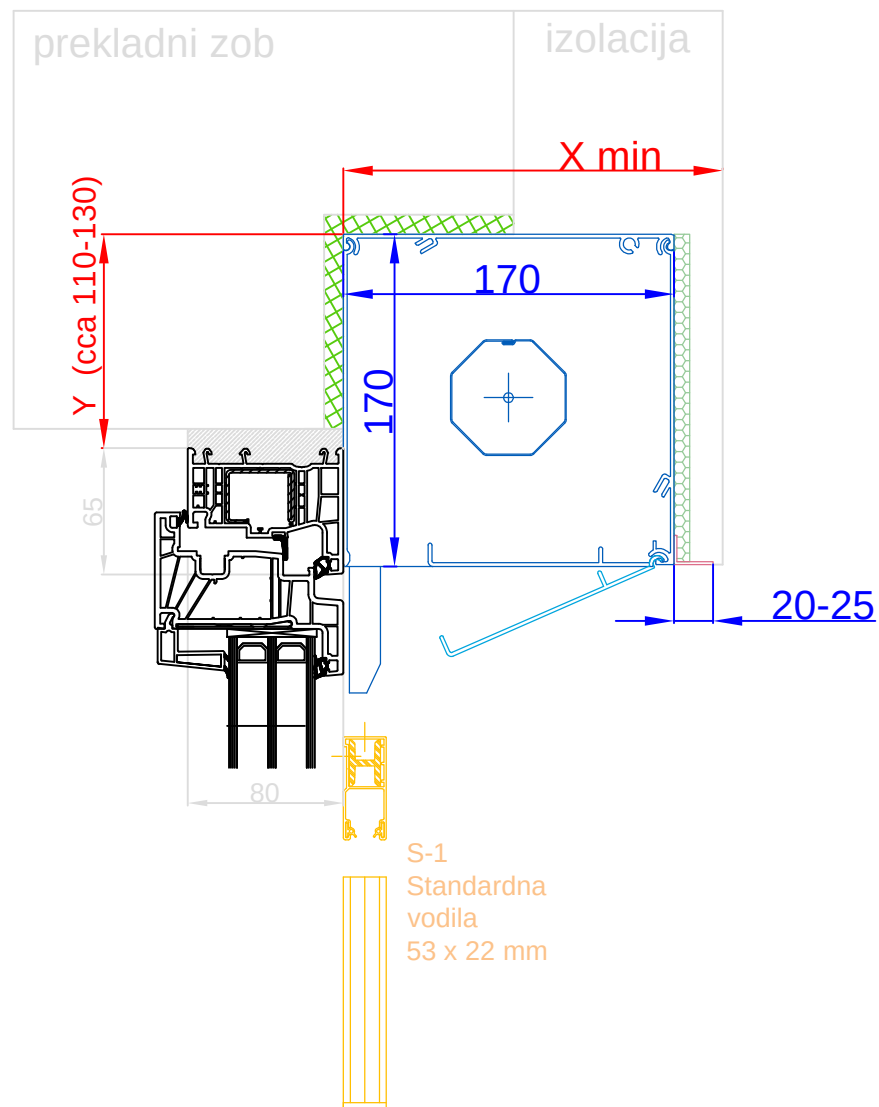

Omarica 140.X (z komarnikom)

X min = globina omarice + zunanji ometni kotnik
160mm omarica + 25mm ometni kotnik
= 185mm

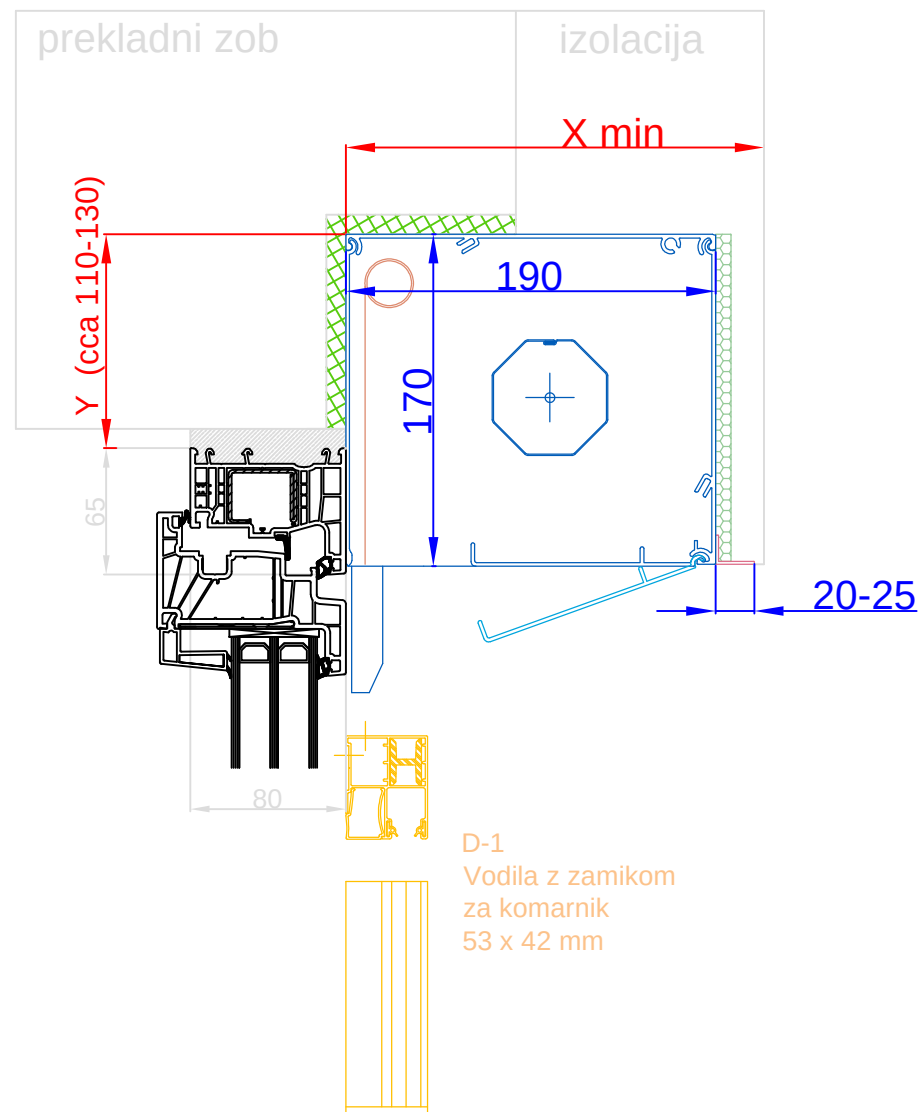

ARTEVO

Omarica 170

X min = globina omarice + zunanji ometni kotnik
170mm omarica + 25mm ometni kotnik
= 195mm

Omarica 170.X (z komarnikom)

X min = globina omarice + zunanji ometni kotnik
190mm omarica + 25mm ometni kotnik
= 215mm

OPEKA

Ometni kotniki za predokenske sisteme

Ometni kotnik za valjane sisteme
*Opcijsko se lahko kotnik prireže

Ometni kotnik za ekstrudirane sisteme

Pri širini elementov nad 200cm je priporočljivo izbrati ekstrudirano (.E) omarico. Te so bolj odporne na upogibanje in povešanje, kot valjane omarice pri večjih dimenzijah.
